German
Beginner

Vision

I'm really interested in open-source code and web privacy protection for everyone.

Experience

Professional jobs

· On-Campus Jobs 2021 - Ongoing

  I work with my own school. I'm developing a platform for online courses using the MERN stack.

Telegram bots 2020 -

· pDEX Lana (@pDEX_Lana_bot) 2021

  Track the price of your favorite pairs of cryptocurrencies in the pDEX Incognito.org market.

· Ensi (@ENSI_Incognito_bot) 2021

  Track the status and earnings of your nodes from Incognito.org.

· Cole Coin (@ColeCoinBot) 2020

  A bot to give Cole Coins to new people joining the project: Trade coins for favors in school.

Other projects

· Lets reduce our carbon footprint 2020

  See scientifically proven ways to reduce it and choose the ones you can achieve!

Volunteer

· I'm volunteering at Telegram Support Force since June of 2020, patiently helping hundreds of users and collaborating with many other volunteers.

Education

2020 - Ongoing	Software Engineer - Tecmilenio
	With a 60% scholarship.

2020 - Ongoing	Master en Coding - Dev.f The Biggest hackers school of Latin America
	This is the most enriching course I've taken with Dev.f. One year degree, from web design to backend.

2017	Cinta Negra Android Dev.f
	Here I learned to develop applications with Java for Android devices.

2016	Cinta Roja - Dev.f
	The intermediate level course they offered. I was the youngest person to get the certification.

Interpersonal skills

· Expert on **crypto** investment

· Self-taught, 100%

· Collaboration

· I like philosophy and science
